From the Office of the Director of Health

Immunization Services to Remain in Main Health Building Through Friday

Through Friday, January 26th, both immunization and tuberculosis skin testing services normally offered at the Westside Public Health Center will temporarily relocate to the main health department building, located at 227 E. Chestnut Expressway. Individuals are asked to check in with the receptionist in the main lobby.

This will include all appointments, as well as the walk-in clinic scheduled for Wednesday, January 24th from 1:30 pm to 3:30 pm.

Appointments can be scheduled by calling 864-1684. Parking is available east of the building by the police department and north of the building in the public parking lot.

The temporary move is due to a continued power outage at the Westside Public Health Center following the recent ice storm. We apologize for any inconvenience. For more details, please call our information hotline at 864-1112.
